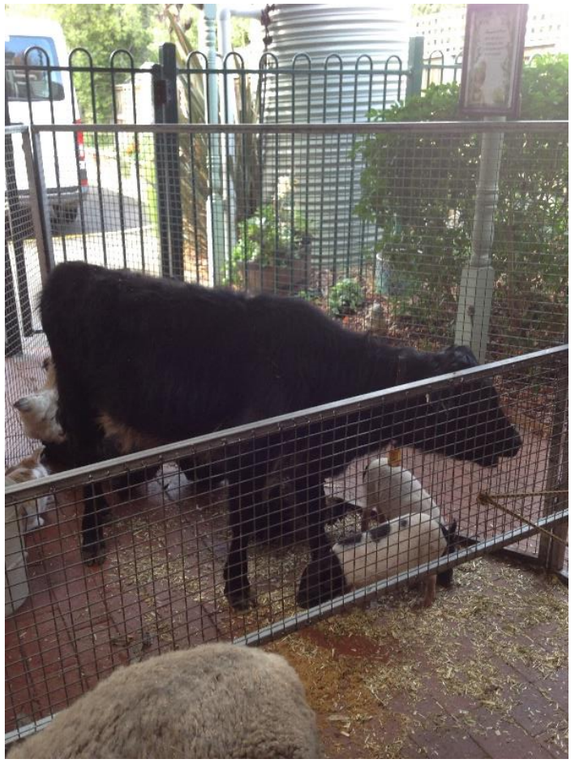
Possum Room June 2022 Reflection 1



Welcome to June, Welcome to winter!

It has been a chilly start to the month, were still enjoying the outdoors but were wearing a whole lot of layers. The children are enjoying ball games, hide and seek and lots of running to warm up our bodies.

On those wet weather days, the Possum Room children have been busy inside. We have been working on our STEM project which is colour recognition and classification. We have been working on colour mixing using Primary colours which then leads to creating Secondary colours. The children have made their beautiful butterflies which are displayed in our room. They achieved this but using paper towel, food colouring (red, blue and yellow) and eye droppers. The children were very curious in this activity, each child's art work is so unique. This experience is a great way to strengthen the children's fine motor pincer grip as well as basic colour mixing.

Animals on the Move came to visit this month. They bring a selection of farm animals to our centre every year. It's such a wonderful time for the children to get up close and personal with these lovely creatures. The children enjoyed patting a variety of animals such as Guinea pigs, Rabbits, Ducklings and Chicks. As well as feeding the Goats, Sheep and a baby Calf. The children could be seen using their gentle hands and moving around the space with care. Well done Possums!
