# April Reflection 2019

During the school holiday's we were lucky enough to have the big kinder room at our disposal as it was free and empty for 2 full weeks. We took full advantage and would enjoy our outdoor program in their yard which the children loved because it meant we were in a different yard altogether, they got to hang out with purple room children and just explore different activities that we don't have in our room which proved to be an exciting challenge for them all. It also sparked some interest's in our room and inspired us to create our own pirate experience and camping grounds outdoors.
Easter long weekend was fast approaching so the children were all excited and were busy doing all sorts of art works, making Easter bunnies with colored sands, painting and pasting their own eggs and just happily excited and ready for their impending Easter hunt.
We also did some cooking experience and to commemorate ANZAC day we made some ANZAC biscuits which the children got to take home and are already asking to make more.
The last day of holidays we thought as a treat we would all have a movie experience so we made some popcorn, created our own movie tickets and set off to our personal kinder theater.
