

July Reflection 2019

NAIDOC week allowed the Kookaburra children to reflect on the Aboriginal Culture learning and understanding more about the acknowledgement and the true meaning behind it. We had a chance to explore the land by walking around, appreciating nature and just being present of what it offers us. We stopped by the park and collected some natural materials for us to use in arts and crafts and you can find them hanging in our room. During group time we enjoyed some dream time stories with "Tiddalik" as one of our favourites.

Together with the Koala Room, we had an exciting bubble incursion with Adore-a-bubble. Becky the bubble fairy took us on an enchanting adventure with a wonderful story using her special bubble magic. Then we got to go outside where she made enormous bubbles that the children enjoyed trying to pop them all. This month we have seen the children's communication flourish, negotiating their way through situations, asking for help from one another, just building relationships with their peers.
