

Purple Group Kindergarten, Weekly Reflection

Term 3, Week 7 , Friday 30th of August

In the doctors area we role play and show empathy and care as we take care of the sick and injured patients. Throughout the week children have enjoyed working on floor puzzles with their peers. Following children's interest we took out the box of Duplo Lego during quiet indoor play. We continue to take time out of the day to enjoy moments of solitude with our favourite activities. Leading up to spring we have been blessed with beautiful weather and took a spontaneous walk to the park for a play. With our peers we learn concepts of turn taking, fairness and use our gross motor skills to climb, swing, run and jump.
