

Purple Group Kindergarten, Weekly Reflection

Term 3, Week 8 , Friday 6th of August

In collaboration with our peers, we discussed and decided to change our construction and diggers area into an Antarctica area. During group time we shared ideas for what type of resources we needed. With much enthusiasm children worked together to create our new Antarctica play space and enjoyed sitting beside our friends exploring. Through our program we take every opportunity to celebrate children's efforts, Eily created a picture of herself at a party and Gus continued made a skate park with multiple ramps using Lego.
