

Reflection 1, February 2019, Koala Room

Well it is getting very warm that is for sure!. That certainly doesn't prevent us getting outdoors early to take advantage of the best parts of the day for indoor - outdoor play. The children are continuing to enjoy ball games, and we have added some new balls attained from the collect a sticker campaign from Woolworths. Ball skills are being fostered and we have had "Let's get Active" incursion come and give us our first session for 2020. The children had their best listening ears on and lined up and participated in challenging ball, jumping skills, striding and balancing skills and directional practice. Being able to be challenged and achieve is assisting the children with confidence. As part of our Early Literacy program we have removed the photos off the name cards The children are experiencing special attention to the first letter of their names to practice at recognising individual letters. We will continue the journey throughout the year beginning with individual letter recognition which is imbedded in our program. We are practicing using scissors, building with many different shapes and construction sets and caring for our books. The children are responding to their new environment with enthusiasm and wonder. The children are all settled into the new room and routine and self help skills are souring.
