

Reflection, March 2020, Koala Room.

Busy March continued with lots of opportunities to play outdoors and with those warm days came lots of ideas from the children. Engineering was happening as the children made long pipes and used them to reach things up high. The doll house was fitted out with the Koala children as occupants and this started lots of Adventures, conversations, rides in the car to the park and imaginative play. The children have been working in the office dramatic play space pretending to use technology and answering endless phone calls. The letter and name wall is helping us to continue our teaching about individual letters and finding our names. The dress-up's are very popular and we have wild animals everywhere being scary and hunting for food. We are gearing up for Easter craft with Bonnets for our Easter Bonnet Parade. One child conducted group story time last week and the children were very patient and sat watching the story with him. Personal hygiene is a focal point and we are including a gentle age appropriate story about Covid 19 so the children can make sense of what has been happening in their world.
