

## Reflection, # 2 May, 2020 - Koala Room.

Hoorah our friends are almost all back ! The Koalas are very busy and we are furthering our physical outdoor activities with lots of active and spontaneous play ideas. Nellie led a session using her pois, which was fun. We are exploring painting further using natural resources like bark, leaves and stamping. These activities are linking to our continued sharing of stories and knowledge about the first people. We also are enjoying the many indigenous stories we have in our library here at the Range. Shape play experiences are happening in our room and we continue to explore building in many mediums. The children are sharing family by bringing show and tell photos. This inclusion to our program is assisting the children with communication skills and Identity.
