

Yellow Group Kinder, Weekly Reflection

Term 1, Week 6

Clean Up Australia day was this week so we learnt a bit about rubbish and recycling. We read a book that looked at recycling and some of the things that you can make out of recycled objects. We also discussed rubbish and littering and how this impacts the environment. We decided to collect all of our packaging across the day and place it all in one box. Then at the end of the day we sorted it into bins. Yellow: for soft plastic, red: for rubbish, green: for compost and worms, blue: for paper. Now the children know all of the coloured bins in the room they can recycle appropriately.

We also had a visit from Anthony "from 'Let's Get Active.'" Anthony made an obstacle course for the children to run around and made it harder and harder each time. This obstacle course enabled the children to use and develop their spatial awareness, co-ordination and gross motor skills while having fun at the same time.
