

Kookaburra Room May 1st Reflection 2021.

The Kookaburra children have been very busy communicating and sharing ideas and imagination using the puppet theatre, the storytelling -play area, and show and tell sessions. Language development and communication skills are being practiced as well as respectful listening and sharing of ideas and thoughts. Show and tell is popular and the children are asking and answering some great questions. The children are interested in how tall they are and we are exploring measurement with them. The “Animals on the move” incursion came to the Range to delight the children and they enjoyed a hands-on experience petting baby, goats, sheep, pigs, chickens, ducks, rabbits and a calf to name but a few. We are making some bird feeders and exploring different birds in our outdoor area.
