

Possum Room January 2022 Reflection 1

We have had a lovely start to the year. Its great to see how settled the children are, exploring the space and the experiences, as well as getting to know their educators. It has been wonderful to see the connections the children have with each other, and how they light up in the morning when they see each other.

We have been getting into a lot of sensory play these past weeks. The weather has been so beautiful that we venture outdoors early. Sand and water play has been very popular. The children have loved filling up their cups and jugs and watching the water splash into the tub or on the ground. Painting and drawing have been very enjoyable amongst the possums. Any chance the painting easel comes out the children are eager have a go. We have started off with using rollers and of course they love using their hands afterwards, which is the best part of painting!

With guidance and encouragement, the children are doing wonderfully with transitions during our day. Group time is a lovely time that we get to get our wiggle's out and have a boogie. We have been doing a lot of action songs such as slippery fish, open shut them, heads shoulders knees and toes and wind the bobbin up to name a few. We are slowly encouraging the children to be more independent. After meal times we guild the children to scrap their bowls and clean their hands and face. We have also introduced cups instead of Sippy cups, the children are taking to it very well but occasionally we have some spills.

It has been a great start to the year getting to know this lovely bunch
