

Curriculum Reflection- Date: November /December 2023

The children were all buzzing with excitement at seeing the lights set up for Diwali, getting their hands painted with henna and listening to stories related to Diwali. To Acknowledge the Melbourne Cup, we made our own race track outside and had horses with numbers on their backs to have fun having horse races. We have begun making Christmas presents for our families practicing some songs for our end of year concert and creating Christmas art in which the children enjoy especially the glitter. We have had a lot of strange weather lately and one particular day it was raining and we sat at the windows looking at the rain and it began to hail which was very exciting to watch and talk about. A big happy birthday to Remi who was our last child in the room to turn three.

Learning Outcome: **LEARNING OUTCOME 3: CHILDREN HAVE A STRONG SENSE OF WELLBEING**

Children become strong in their social, emotional and mental wellbeing

This is evident, for example, when children develop a growth mindset and learning dispositions such as curiosity, cooperation, confidence, creativity, commitment, enthusiasm, persistence, imagination and reflexivity. Apply a wide variety of thinking strategies to engage with situations and solve problems and adapt these strategies to new situations.
